BUSINESS OFFICE LOCATION

The Business Office of the Company is located at 470 Commercial St., Astoria, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save your time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between a telephone on land and a ship equipped with a radio telephone or between ships when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a telephone on land call "Long Distance" or dial "Operator" and ask for "Marine Operator" and tell her you wish to place a call to a ship, giving her the name of the ship and its approximate location.

DIAL SERVICE

LOCAL CALLS

Do not start to dail until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

WARRENTON—Telephone numbers of other customers on your line will have the same first three figures as your telephone number. To call another party on your line, dial "9", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.

Two friendly telephone habits: QUICK to answer when your bell rings; SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.

Built-in telephone outlets cost so little... mean so much

At the time a house is built, the cost of installing conduit for a number of telephone outlets is small...and it adds real value to the home. It's a wise economy, even if only one telephone is needed immediately.

Additional telephones can be added when you want them...where you want them...without running exposed wires along baseboards or moulding or drilling through floors. When you build, plan for a number of outlets. Call your local Telephone Business Office and ask for free Architects and Builders Service.

The Pacific Telephone and Telegraph Company

Nothing's finer than a Good Neighbor

...and that goes for a telephone party line

Just as a good neighbor on your street is always thoughtful and helpful . . .

So does a good telephone party line neighbor cooperate with you in telephone usage.

Here are a few of the ways to make sure you are a good neighbor on your party line:

- Make sure the line is not in use before you try to call.
- If you find the line busy when you have to make an urgent call, politely explain the circumstances to the person using the line. Extend the same courtesy to others you expect yourself under like conditions.
- Talk no longer than necessary; allow time between calls so that others may have a chance to use the line.
- Answer promptly when your telephone rings; always replace the receiver when you have finished using the line.

Careful observance of these points assures more satisfaction and better service on your telephone party line.

You Can Help

You want the best telephone service possible. We want you to have it! Will you cooperate with us in the following ways, in order that your telephone calls at all times may be clear and satisfactory?

- Please speak directly into the transmitter with lips just clearing the mouthpiece.
- Please speak distinctly and not too rapidly.
- Please do not shout—just use your normal talking voice.
- Please be sure of the number before calling. If in doubt, please look it up in the directory. That saves you annoyance — and somebody else unnecessary steps.
